

Yallamati Satyam Babu

Data Analyst

📞 9390999674 — ✉️ satyambabuyallamati2004@gmail.com — [🌐 LinkedIn](#) — [🐙 Github](#) — [📁 Portfolio](#)

Summary — Results-driven Data Analyst with strong proficiency in SQL, Excel, Python, and Power BI for data extraction, cleaning, transformation, and visualization. Experienced in conducting statistical analysis, building interactive dashboards, and deriving actionable business insights from complex datasets. Skilled in ensuring data accuracy and quality through validation and reporting processes. Passionate about transforming data into strategic decisions and contributing to data-driven innovation in fintech and enterprise environments.

Skills

Data Analysis: Data Cleaning, Transformation, Validation, Exploratory Data Analysis (EDA)

DAX : Measures, Calculations, Aggregations, Relationships

Data Visualization: Power BI, Excel (PivotTables, Charts, Dashboards), KPI Design

Tools & Version Control: GitHub, Jupyter Notebook

Database: SQL (Joins, Window Functions, CTE)

Interpersonal Skills: Analytical Thinking, Stakeholder Communication, Collaboration, Attention to Detail, Creative

Programming: Python (Pandas, NumPy, Matplotlib, Seaborn)

Problem-Solving

Internship

AI/ML Intern – Techno Future India

Dec 2024 – Apr 2025

- Developed and tested AI/ML models with a focus on data cleaning, preprocessing, and analysis to extract actionable insights.
- Built and optimized data pipelines for efficient model training and integration of AI workflows across datasets.

ChatGPT / Gen AI Intern — APSICHE & Blackbuck Engineers

May 2024 – Jul 2024

- Applied Generative AI tools to analyze datasets and generate insights for decision-making.
- Created interactive reports and visualizations to communicate findings and support cross-functional teams.

Projects

Bike Sales Dashboard – Excel

- Developed an interactive Excel dashboard using PivotTables, charts, and slicers to analyze customer demographics
- Automated data cleaning and reporting processes to ensure accurate KPI tracking and improved efficiency.

Amazon Sales Dashboard – Power BI

- Developed an interactive Power BI dashboard using Amazon sales data with DAX-based KPIs for revenue and profit analysis.
- Implemented optimized data modeling and drill-down time-intelligence features for efficient performance tracking and reporting.

Financial Market Risk & Return Analysis (2020–2025) – Python

- Analyzed multi-sector stock data using Python to evaluate returns and volatility.
- Computed risk-adjusted metrics including annualized return and Sharpe Ratio.
- Visualized trends, correlations, and risk vs return insights using Matplotlib and Seaborn.

Education

KKR & KSR Institute Of Technology And Sciences

Bachelor of Technology in Information Technology

CGPA: 7.91 — 2021 : 2025

NRI Junior College - MPC

Marks: 795 — 2019: 2021

Aditya High School - SSC

CGPA: 7.8 — Passout: 2019

Certifications

- Completed GenAI Powered Data Analytics Job Simulation (Sep 15, 2025, Forage) [🔗](#)
- Completed Data Analytics Job Simulation (Sep 17, 2025, Forage) [🔗](#)
- Certified in SQL from Hackerrank (Jul 25, 2024) [🔗](#)
